

SteveSongs Tech Setup

Duo Configuration

Steve

Steve – lead vocal, acoustic guitar (Steve brings his own wireless headset mic, venue to provide 1 direct box)

Stack

Stack – vocal drums and bass (venue to provide 2 direct boxes, vocal mic)

Performance Technical Needs

- 3 direct boxes
- 2 Monitors (mix should be mainly Steve vocal & Steve guitar with minimal amount of other instruments & vocals to start)
- 1 vocal mic (SM-58, equivalent or better) & boom stand
- 4 XLR cables
- Bass amplifier (venue is to provide if agreed upon with agent)
 - Must be the below models or equivalent- PLEASE NO SVTs (Super Vacuum Tubes)
 - Outdoor Venues (or indoor venues 300+)
 - 4x10" cabinet plus a head (i.e., amp to power the cabinet) [e.g. Eden WT600 "Road Runner" or WT800 "World Tour" Bass Amplifier (head) with Eden D410XLT cabinet / SWR SM900 head with SWR Goliath cabinet]
 - For Indoor Venues <300
 - 2x10" combo (cabinet and amp in one) [e.g. Eden DC210XLT "The Metro" or SWR Redhead]

PLEASE NOTE: If the venue cannot provide some of the above performance technical needs, please let Lauri Chmielewski (781-400-5310/lauri1@comcast.net) or Steve Roslonek (617-851-8131/stevesongs1@hotmail.com) know as soon as possible.

Any questions, please contact Steve Roslonek at 617-851-8131 / stevesongs1@hotmail.com
